SKILLS

- **Languages:** C++, Python, SQL, JavaScript, HTML, CSS
- **Frameworks:** Node.js, Streamlit
- **Tools/Platforms:** Git, GitHub, Power BI, Excel, NumPy, Pandas, scikit-learn, OpenCV, Tkinter
- **Soft Skills:** Problem-Solving, Quick Learner, Adaptability, Time Management

PROJECTS

- Coffee Shop Sales Analysis | [GitHub](#) | [Live](#)**

Feb' 25 - May' 25

 - Performed data cleaning and preprocessing using Python, Pandas, and NumPy, which reduces inconsistencies.
 - Handled missing values, standardized formats, and transformed raw sales data into structured tables.
 - Built an interactive Streamlit dashboard to visualize KPIs, detect patterns, and support business decisions.
 - Improved decision-making by automating analysis workflows and presenting clear, data-driven business insights.
 - Tech: Python, Pandas, NumPy, Matplotlib, Seaborn, Streamlit
- Pizza Store Sales Dashboard | [GitHub](#) | [Live](#)**

Apr' 25 - May' 25

 - Developed an interactive Power BI dashboard to analyze pizza sales performance and business insights.
 - Performed data cleaning, transformation, and modeling using Power Query, DAX, and Excel.
 - Created visualizations for revenue, orders, sales trends, pizza categories, and size-wise analysis.
 - Implemented multi-page navigation, filters, slicers, and KPI cards for dynamic reporting.
 - Tools & Tech: Power BI, DAX, Power Query, Excel, SQL
- Real-time Process Monitoring Dashboard | [GitHub](#) | [Live](#)**

Apr' 25 - May' 25

 - Designed an AI-powered system monitoring tool in Python using Tkinter and psutil.
 - Used basic forecasting methods to predict resource usage and identify unusual system behavior.
 - Initiated a responsive UI with performance graphs, process tracking, and dynamic indicators.
 - Enhanced monitoring accuracy by combining statistical modeling with machine learning-based anomaly detection.
 - **Tech:** Python, Tkinter, psutil, NumPy, Pandas, Matplotlib, scikit-learn

TRAINING

- Cipher Schools | DSA in C++ | [Certificate](#)**

Jun' 25 - Jul' 25

 - Completed 70 hours of hands-on training in core DSA concepts.
 - Practiced arrays, linked lists, stacks, queues, trees, graphs, recursion, sorting, and searching.
 - Upgraded problem-solving skills efficiency through assessments and practice tasks.
 - Gained hands-on experience writing efficient and optimized C++ programs.

CERTIFICATES

- Oracle Data Platform 2025 Certified Foundations Associate | [Link](#)

May' 26
- Cloud Infrastructure Certified AI Foundations Associate | [Link](#)

Aug' 25
- Software Engineering | Coursera | [Link](#)

May' 25

ACHIEVEMENTS

- Developed **3+ full projects** including dashboards, ML models, and monitoring applications.
- Completed 150+ LeetCode coding challenges, improving problem-solving and algorithm optimization skills.

EDUCATION

- **Lovely Professional University**

Phagwara, Punjab

Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.07**

Present August 23
- **Laxmi Rajdeo School**

Muzaffarpur, Bihar

Intermediate; **Percentage: 65%**

April 22 - June 23
- **Paramount Academy Silaut Bimal**

Muzaffarpur, Bihar

Matriculation; **Percentage: 56.4%**

April 20 – March 21
